SUMMARY

Computer Science and Engineering graduate focused on frontend development and responsive web applications. Hands-on experience building web projects using HTML5, CSS3, JavaScript (ES6+), React.js, and GSAP. Familiar with REST API integration, Git/GitHub, responsive design, UI animations, and frontend debugging. Seeking an entry-level Frontend Developer or Software Developer role to build scalable and user-friendly web applications.

EDUCATION

Sharad Institute of Technology, College of Engineering

2022 – 2026

B.Tech. in Computer Science and Engineering

Ichalkaranji, Maharashtra

Maharashtra High School & Junior College

2020 – 2022

Higher Secondary Certificate (HSC)

Kolhapur, Maharashtra

S.M. Lohia High School

2019 – 2020

Secondary School Certificate (SSC)

Kolhapur, Maharashtra

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js

Web Development: Responsive Design, DOM Manipulation, REST APIs, JSON, UI Animations, GSAP

Programming: JavaScript, Java

Backend: Node.js, Express.js, MongoDB

Tools: Git, GitHub, VS Code, Postman, Figma

PROJECTS

BoardBridge – IoT Hardware Marketplace | *React.js, JavaScript, Node.js, Express.js, MongoDB*

- Developed a full-stack marketplace for buying and selling used IoT hardware, including development boards, sensors, cables, displays, and power modules.
- Built reusable React components and integrated the frontend with REST APIs for product, user, and marketplace operations using Node.js and Express.js.
- Implemented authentication flows, product management, and seller-side functionality with MongoDB for persistent data storage.
- Tested REST API endpoints and frontend-backend communication using Postman and Thunder Client.

Citizen Grievance Portal | *HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB*

[Live Demo](#)

- Developed a web-based grievance management portal that enables citizens to submit, track, and manage civic complaints with category, priority, location, and status information.
- Built citizen and official dashboards with department-based complaint management and complaint status tracking using Node.js, Express.js, and MongoDB.

Premier Models | *HTML5, CSS3, JavaScript, GSAP, ScrollTrigger*

[Live Demo](#)

- Built a responsive fashion and model management website featuring a video hero section, model carousel, updates, blog cards, animated marquee, and structured footer.
- Implemented interactive entrance, reveal, and scroll-based animations using GSAP and ScrollTrigger, including staggered section animations and pinned image reveals.
- Developed responsive layouts for desktop, tablet, and mobile devices using CSS media queries and implemented an animated hamburger navigation menu.
